## CheckBox HSR+ Features

Release 4.50 and up

The CheckBox HSR+ is a completely self-contained, stand alone guest Internet solution, ideal for cafés, coffee shops, restaurants, bed & breakfasts, waiting areas and smaller venues. The HSR+ works with any high speed Internet connection (DSL, cable, fiber, T1, satellite, etc.) & does not require a dedicated computer.

- Captive portal – no WEP or WPA required
  - Supports wired and wireless clients
  - Splash page and redirect page fully configurable - no vendor banner ads or logos
  - Splash page can be location or region specific
  - Splash page can be dynamically updated with your current CMS (content management system)
  - Domain White List - allow access to pre-specified domains without validation
  - Multiple validation options – tickets, limited or unlimited free access & Perma codes
  - Property Management Integration – Supports integration with Property Management Systems
  - Participant loyalty/rewards program capable with provided API
- 
- Integrated Access Point
  - VPN support for end clients for connecting to corporate clients
  - Compatible with all operating systems - No configuration changes required on guest laptops
- 
- Client-to-Client security isolation supported
  - Bandwidth throttling and management
  - System firewall to protect guests from external threats
  - Tunneling VPN for easy management without port forwarding, static IP's, or manual DMZ settings
  - Easily operates outside of corporate telecommunication infrastructure for PCI compliance
  - Can be used with external content filtering services
- 
- Web based administrative tools
  - Cloud based remote access for off-site property management
  - 24/7 monitoring with text or email notifications of outages
  - Automatic software upgrades
-
